

Sales and Customer Insights Analysis for Vrinda Store – 2022

Problem Statement

- Compare sales and orders using a single chart.
- Identify the month with the highest sales and orders.
- Determine whether men or women purchased more in 2022.
- List the different order statuses in 2022.
- Identify the top 10 states contributing to sales.
- Analyse the relation between age and gender based on the number of orders.
- Identify which channel is contributing the most to sales.
- Find the highest selling category.

Key Insights

- Women are more likely to buy compared to men (~65%).
- Maharashtra, Karnataka, and Uttar Pradesh are the top three states contributing to sales.
- The adult age group (30–49 years) is the maximum contributor (~50%).
- Amazon, Flipkart, and Myntra are the top channels contributing to sales.

Final Conclusion & Recommendation

To improve **Vrinda Store's sales**, the company should:

- Focus marketing efforts on **women customers aged 30–49 years**.
- Target customers in **Maharashtra, Karnataka, and Uttar Pradesh**.
- Promote ads, offers, and coupons primarily on **Amazon, Flipkart, and Myntra**, as they are the leading sales channels.
